ISLAM UNIVERSITY
2019 - PRESENT

RESUME OBJECTIVE

Forward-thinking Software Engineer with background working productively in dynamic environments. Fluent in JavaScript and Python programming languages used to develop software. Proud team player focused on achieving project objectives with speed and accuracy.

EXPERIENCE

FULLSTACK DEVELOPER

CIELO COSTA, LONDON ENGLAND, Remote / September 2021 – Present
TECH: ReactJS, ExpressJS, GraphQL MongoDB

- Designed and developed a scalable full-stack web application using Express.js, MongoDB, and PostgresSQL and GrapgQL that achieved an increase in user engagement.
- Deployed the web application to Microsoft Azure cloud platform, utilizing load balancing and auto-scaling to handle high traffic volumes.
- Developed a user authentication system using Passport.js that improved the web application's security and reduced the risk of unauthorized access.
- Utilized React.js to develop a responsive and intuitive user interface, which led to a reduction in bounce rate and an increase in user retention.

FRONTEND DEVELOPER

CODEJAM CAFE, DUBLIN, IRELAND, Remote / December 2020 – August 2021
TECH: ReactJS, Redux, Redux Thunk, Redux Saga

- Successfully built and maintained a scalable web application using Node.js, React.js, Redux, and Redux Thunk that achieved reduction in page load time.
- Developed a comprehensive documentation system for the web application that included detailed technical specifications, user manuals, and API documentation. The documentation system increased the efficiency of the development team by 20% and reduced the number of user support requests by 40%.
- Collaborated with cross-functional teams, including product managers and designers, to design and implement new features for the web application. The features included a user-friendly interface that increased the user retention rate by 25%, as well as an automated testing framework that reduced the number of bugs by 80%
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.

INTERNSHIP

KCOMPUTE, KARACHI, PAKISTAN / August 2020 – November 2021
TECH: ReactJS, Angular, HTML

- Worked on ReactJS and Angular project
- Task is distributed by lead developer and end of the day report to lead developer
- Build many dynamic UI like map, book, dynamic form

INTERNSHIP

STEMCORPS, ISLAMABAD, PAKISTAN Remote / May 2020 – July 2020
TECH: Django, Mongo dB, PostgreSQL,

- Type documents such as correspondence, drafts, memos, and emails, and prepared 3 reports weekly for management.
- Opened, sorted, and distributed incoming messages and correspondence.
- Purchased and maintained office supply inventories, and always careful to adhere to budgeting practices.

TEACHER/ CO-FOUNDER

THE LEADER INSTITUTE, KARACHI, PAKISTAN / March 2019 – January 2020

- Communicated frequently with parents, students, and faculty to provide feedback and discuss instructional strategies.
- Planned and implemented integrated lessons to meet national standards.
- Instructed students in core educational principles, concepts, and in-depth subject matter.

SELF LEARNING PROJECT

SAASTIKITAB

- It is an ecommerce website where user can buy, sell, and add book in the C. Payment can be done by PayPal. Its frontend is built in React and backend in Django.
